## Projects

**Open Web Asia '08**
A conference and technology event for the top technology executives, entrepreneurs, and venture capitalists throughout Asia, hosted in Seoul, Korea. Held in association with the World Knowledge Forum (WKF).
The event was organized by the Open Web Asia Workgroup and other prominent entrepreneurs, thinkers, and bloggers

within the Asian web industry. It was spurred by a desire to create a high quality, informative and practical technology conference focused on the internet industry.
