

Kai

Founder

Dhaka, Bangladesh | [LinkedIn](#) | [Bundai](#) | [Twitter](#)

2x founder and former CTO with 12 years building startups. Currently scaling Bundai, an AI language learning platform that generates 7M views monthly through custom AI content systems.

EXPERIENCE

Founder

Jan 2026 — Present

Bundai

Dhaka, Bangladesh

Building an AI language learning platform with a custom marketing engine that generates 500 shorts daily. Achieved 40k followers and 7M views on Facebook in 4 months using local LLM-powered systems. Architected on-device Japanese voice tutor with full voice AI pipeline including speech-to-text and text-to-speech. Built mobile apps (iOS/Android), web app, Mac app, and browser extension using AI automation.

Technical Product Manager - Dlogos

Jun 2025 — Dec 2025

dLogos & Sapien

San Francisco Bay Area

Hired three times by the same CEO for different ventures. Owned technical product direction for dLogos, an AI-assisted podcast pre-production platform, and Sapien, a blockchain-based social network. Led product engineering using Claude and Cursor in early 2024. Built React Native mobile app and web app MVP. Managed local dev teams and drove product strategy.

Chief Technology Officer - Basement Sports

Sep 2020 — May 2025

Basement Sports

New Jersey, United States

First engineer building the MVP for a mixed reality sports social network. Hired, mentored and led a team of 5 engineers. Architected the React Native, GraphQL and Node.js stack. Introduced live streaming via Agora.io and Web3/NFT integrations on Polygon. Supported CEO on fundraising efforts that raised \$750K.
