EXPERIENCE

Founder

Offset Works

Jan 2026 — Present

Manhattan, New York, United States

Global Operations Excellence & Digital Transformation Project Manager

Mar 2016 — Jul 2026

Colgate-Palmolive

Greenwood, South Carolina, United States

Designed and executed a global digital transformation program serving over 15,000 users across supply chain operations.

Implemented more than 300 operational use cases spanning operations, human resources, quality, safety, warehousing, logistics, and finance. Collaborated with a startup on a connected-worker application through requirements, risk assessments, quality assurance, validation, training, deployment, and scaling.

LAGO - Project Manager

Jul 2015 — Jan 2017

Universidad del Valle de Guatemala

Guatemala

As my bachelor graduation project, I led the Latin American Giant Observatory Project's implementation in Guatemala, adding the first space particle detector in the country, augmenting the project's scope by providing data from the muons detected at the Central America level. My role was leading this project's implementation, via the use of PMI standard methods.

Customer Support & Operations Specialist

Dec 2013 — Nov 2017

Unlock River

Amsterdam, North Holland, Netherlands

Managed customer support operations using Zendesk and Intercom, handling email management, order processing, and support resolution. Developed standard operating procedures and automation workflows to standardize support processes and improve efficiency.
