

Sharanyan Satthiyaseelan

Product Owner

Toronto, Canada | [LinkedIn](#)

Payments product leader with 7+ years across banking modernization, fintech infrastructure, and digital payments. Owns end-to-end product delivery for institutional payment processing and cross-border payment platforms.

EXPERIENCE

Product Owner

Sep 2025 — Present

Symcor Inc.

Toronto, ON

Managing end-to-end product delivery for COR.PAY Payment Processing Solutions serving Canada's Tier-1 banks. Led product ownership for the company's first mid-market venture from discovery through customer acceptance testing, consolidating fragmented cross-functional discovery into a unified PRD framework that cut requirements capture from 4-8 weeks to ~2 weeks and compressed go-live timelines by 30%. Authored the technical RDC Mobile integration suite spanning vendor APIs and complete cheque deposit processing flows. Transformed legacy waterfall-heavy teams into a predictable Agile framework, achieving 85%+ SAFe Program Predictability Measure. Deployed Microsoft 365 Copilot and Cowork automation to accelerate cross-functional visibility 10x.

Product Manager

Oct 2022 — Sep 2025

Canada Stablecorp Inc.

Toronto, ON

Led product strategy for a stablecoin cross-border payments platform serving 9 businesses, managing infrastructure development, workflow automation, provider migrations, and feature launches that improved transaction volume and user satisfaction. Executed end-to-end product management for three custom API solutions: inventory financing, bill payments via CAD stablecoins in self-custodial wallets, and treasury management with DLT closed-loop systems. Conducted onboarding research across KYC and digital wallet connectivity to identify pain points and prioritize development. Managed integrations, partnerships, and enhancements for crypto and fiat payments using CAD stablecoin to enable on-chain FX and efficient on/off-ramp solutions.

Product Specialist

Oct 2021 — Sep 2025

Canada Stablecorp Inc.

Toronto, ON

Enhanced UI and API tooling for Web App and API products with engineers, implementing progressive disclosure and customized onboarding that reduced checkout abandonment 40%. Reduced special-handling order processing times 40% by launching internal operations admin dashboard and developing Slack and Telegram monitoring bots in Python. Delivered critical API and Web App infrastructure upgrades integrating new payment processors and updating wallet infrastructure, generating thousands of new API calls and increasing core customer usage 50%.

Consultant

Sep 2020 — Oct 2021

Self-Employed

Independent Fintech Product Initiative

- Led an independent initiative focused on stablecoin based payment infrastructure using privacy focused distributed ledger technology.
- Secured grant funding to deliver technical tooling and product documentation supporting a live pilot.
- Worked with engineers and open source contributors to define milestones, prioritize the roadmap and support user and developer adoption.
- Introduced structured product and agile delivery practices using GitHub, Jira and Notion.

Product Specialist

Sep 2020 — Oct 2021

Stealth Startup

Remote

Streamlined delivery processes for a fintech infrastructure company by embedding its feature set into existing enterprise and consumer client workflows. Identified gaps in legacy systems and delivered actionable improvement proposals aligned to delivery goals, managing requirements and documentation in Jira and Confluence.

Research Assistant

Oct 2016 — Sep 2020

Western University School of Health Studies

London, ON

- Conducted qualitative and quantitative research on healthcare and hospital process improvement in Ontario, contributing to data analysis, published findings and research presentations.
- Worked closely with faculty to manage project scope, timelines and budget, ensuring research deliverables were completed as planned.

Product Analyst (Internship)

Apr 2015 — Sep 2015

Symcor Inc.

Mississauga, ON

Managed product planning and stakeholder reporting for cheque fraud detection solutions. Triageed production incident reports by severity for developer and QA resolution to meet SLAs. Supported Agile requirements gathering for image and paper capture software processing financial documents and enhanced X9-format processing templates.

EDUCATION

Western University

Bachelor of Arts (BA) in Psychology in Behavioral Economics & Consumer Behavior

Dean's Honors
