Equity Analyst Mar 2026 — Present
Lynott Partners *London*

VP, Product Nov 2021 — Mar 2026
Exabel *Greater London*

Product Manager Jan 2020 — Oct 2021
Orbital Insight *London, England, United Kingdom*

- Product manager for Orbital Insight GO, a market-leading SaaS product for analysing satellite imagery & location data at terabyte-scale; used by governments, banks, corporates & investors to understand what is happening on & to the Earth.
- Lead a global team of designers, engineers & data scientists to develop ML and computer vision analytics, focused on making these accessible to both technical and lay users with a delightful UX.
- Collaborate with product, engineering, and revenue to define product strategy & roadmap.
- Major features shipped include: global area of interest catalog for geospatial queries, and GO Analysis - a managed Jupyter environment for downstream analytics & visualization of geospatial data.
- Led development of the Traceability algorithm for analysing location data to map & elucidate supply chains, from conceptualization through development and go-to-market.
- Partner with sales & marketing to plan go-to-market for our supply chain use case - drove this to become a major contributor across numerous logos in the consumer goods industry.

Director, EMEA Solutions Engineering Apr 2018 — Dec 2019
Orbital Insight *London, United Kingdom*

- First employee in Europe; scaled commercial business to significant growth
 - Cross-functional role, straddling engineering / data science, technical sales, business ops
 - Drove business case, vendor negotiations, and initial algorithms for shipping location (AIS) data
- Orbital Insight is a Geospatial Big Data company leveraging the rapidly growing availability of satellite, UAV, and other geospatial data sources, to understand and characterize socio-economic trends at global, regional, and hyper-local scales.
