EXPERIENCE

Product @ Trade Republic

Trade Republic

Dec 2024 — Present
London Area, United Kingdom

Co-Founder

Supersonic

An indie multiplayer fitness app for runners, walkers and hikers – and used by people across 60+ countries

Apr 2022 — Nov 2024
London, England, United Kingdom

VP of Product Management

Hubpay

Helping build a world-class cross-border payments platform for businesses

Feb 2022 — Mar 2023
London, England, United Kingdom

Senior Director of Product Management

Gopuff

Joined Gopuff through its acquisition of Dija. As part of this, i lead product teams that owned Dija's end-consumer apps as well as its operations technology platform

Jul 2021 — Mar 2022
London, England, United Kingdom

Director of Product Management

Revolut

My teams are responsible for Revolut's Premium & Metal Subscription products, Revolut Junior and Revolut Gifting.

As part of this, we

- significantly improved conversion to Revolut's Premium & Metal subscription plans by launching several user-focused improvements

- launched and scaled Revolut Junior across the EU, and are now executing to be number one globally

- launched Revolut Gifting, and are now scaling the product across features and markets

Aug 2019 — Jul 2021
London, United Kingdom

Director of Product Management

Zeta India

Zeta is a leading fintech startup in India that provides digital payment solutions for companies.

We started by inventing the digital Meal Vouchers & Employee benefits space, grew to become the largest player in this space in the country, and then expanded our product line to include Expense Management and additional payment use cases.

I joined Zeta as its first Product Manager, and hired & scaled the product & design teams to create market-winning products – including all our iOS & Android mobile apps, web apps, internal tools and more.

Our apps were rated 4.5+ by the time I left and I'm proud of the team & products we created together.

Jun 2015 — Oct 2018
Bengaluru, Karnataka, India

Senior Product Manager

Directi

I helped successfully launch the Mac & Windows apps for Talk.to (a cross-platform, end-consumer chat service that later pivoted to Flock, an enterprise chat service).

I also helped increase user engagement through launching multiple new features like group chat, stickers, SMS integration and email notifications.

Jul 2011 — Jul 2015
Mumbai, Maharashtra, India

Associate Product Manager

Directi

As an Associate Product Manager, I was responsible for the OrderBox platform that powers all of Directi's Domains & Hosting businesses – ResellerClub, LogicBoxes & BigRock.

In this role, I helped completely revamp OrderBox's user admin interfaces to a modern, easy-to-use version.

Apr 2010 — Jun 2011
Mumbai, Maharashtra, India

Lead Software Engineer

SAP Labs India

I was a Lead developer for SAP's Multi-Resource Scheduling product and helped ship multiple features and releases.

Sep 2006 — Mar 2009
Bengaluru Area, India

EDUCATION

Indian School of Business

PGPM in Marketing, Information Technology

Jan 2009 — Jan 2010

National Institute of Technology Kurukshetra

Jan 2002 — Jan 2006
