

K. Tayo ..

Senior Security Engineer Manager

Washington, DC 5718884214, @kgbohunmi | [LinkedIn](#)

Security and risk leader with expertise in enterprise security risk management, compliance programs, and GRC transformation across financial services, healthcare, and technology sectors.

EXPERIENCE

Senior Security Engineer Manager Eliassen (PricewaterhouseCoopers)	Aug 2024 — Present New York, United States
Led comprehensive security and technology risk assessments for PwC advisory clients across financial services, healthcare, technology, and semiconductor sectors. Directed enterprise-wide GRC transformations aligned to COBIT, NIST CSF, and FFIEC standards, improving audit readiness and reducing regulatory findings. Managed SOC 2, ISO 27001, and GDPR certification readiness by coordinating evidence collection and remediation activities with engineering teams.	
Assistant Vice President, Technology Risk & Compliance (GRC) Services State Street Bank	Apr 2022 — Dec 2023 Boston, Massachusetts, United States
Managed execution of security risk-based assessments across cloud infrastructure, identity and access management, and critical applications supporting front and back office operations. Led enterprise GRC initiatives including security policy lifecycle management, control design, and enforcement across engineering and product teams. Managed third-party risk across the vendor lifecycle, building risk scoring models and implementing contract-level security requirements for high-risk partners.	
Security Assurance & Advisory GRC BDO USA	Feb 2021 — Apr 2022 Remote
Led security, technology risk, and compliance engagements for financial services and technology clients, assessing cloud environments and infrastructure controls against NIST CSF, ISO 27001, SOC 2, and FFIEC requirements. Developed enterprise security strategies and governance frameworks aligned with business objectives and regulatory requirements. Designed and implemented scalable control frameworks across cloud and on-premises environments to support financial reporting and operational resilience.	
Senior Risk and Compliance Imitor Group	Jan 2017 — Feb 2021 Columbia, Maryland
Conducted comprehensive security assessments and evaluated the design and effectiveness of internal controls across business and infrastructure applications. Led enterprise-wide cybersecurity risk assessments using NIST 800-series standards, delivering board-ready reports with prioritized remediation plans. Managed vendor due diligence, SOC report reviews, and third-party risk assessments for critical vendors, performing gap analyses and residual risk scoring.	

EDUCATION

Temple University M.Sc. Technology Audit and Cyber Risk
Temple University B.Sc. Accounting
Obafemi Awolowo University (OAU) Undergraduate
