

Abdallah B.

Consultant Senior Cybersécurité & GRC

Paris, France | [LinkedIn](#)

Senior cybersecurity and GRC consultant with 30 years of IT and infrastructure experience, including 15+ years in leadership roles. Certified ISO 27001 Lead Auditor and Implementer, specialized in SMSI audit, risk analysis, regulatory compliance (ISO 27001, NIS2, DORA, RGPD), and cyber-resilience for large enterprises and mid-market companies.

EXPERIENCE

Consultant Senior Cybersécurité & Cyber-Résilience

Jan 2026 — Present

Cabinet de Conseil

Ville de Paris, Île-de-France, France

Leads simultaneous cybersecurity and cyber-resilience projects for large enterprises and mid-market clients, spanning risk analysis, business continuity planning, and crisis management. Delivers structured outputs including security policies, business impact assessments, and recovery strategies. Facilitates steering committees and client workshops while contributing to technical and commercial proposals.

Senior Cybersecurity & Cyber-Resilience Consultant

Jan 2026 — Present

Unknown

Paris

As a senior consultant in a firm specialising in cybersecurity and cyber-resilience, I work autonomously on high value-added consulting assignments for large corporations and mid-sized companies, in the fields of business continuity and cybersecurity.

□ Areas of expertise

- Business Continuity Plan (BCP) and IT Disaster Recovery Plan (DRP)
- Cyber-Resilience Management System — ISO 22301 / ISO 27001
- Cyber risk management — ISO 27005, EBIOS Risk Manager method
- Management of IT resilience projects in complex environments

□ Main assignments

- Leading and delivering several cyber-resilience projects simultaneously, from risk analysis to operational implementation
- Producing structured deliverables: BIA, recovery strategies, continuity plans, security policies
- Facilitating steering committees and client workshops with a focus on anticipation and structure
- Contributing to technical and financial proposals
- Actively participating in internal initiatives to develop the service offering and in business development

□ Cross-functional skills

- Broad culture of risk management and business continuity
- Command of ISO 22301, ISO 27001, ISO 27005 and EBIOS RM frameworks
- Ability to spot opportunities and develop client relationships
- Sharing know-how and mentoring junior consultants

Transition vers la cybersécurité – Formation, certifications & GRC

Apr 2024 — Dec 2025

Self-employed

Paris, Île-de-France, France

Pursued comprehensive PECB certification pathway (ISO 27001 Lead Auditor, ISO 27005 Risk Manager, ISO 27001 Lead Implementer, ISO 22301 Lead Implementer) to transition 30 years of IT and telecom experience toward cybersecurity and organizational resilience. Built cyber-resilience consulting practice with methodology and deliverables library (BIA, risk mapping, PCA/PRA, dashboards). Deepened expertise in EBIOS RM, crisis management, NIS2, and DORA frameworks.

Responsable du secteur Télécom, Média et Observabilité

May 2021 — Dec 2024

ESN (Grands Comptes)

Greater Paris Metropolitan Region

Oversaw critical network infrastructure security audits for major energy and telecom clients including Orange Business, SFR, EDF, and RTE. Managed contract portfolio generating €5M+ annual revenue with 100% SLA compliance. Led team of 35 IT/network professionals with complete P&L responsibility and >95% client satisfaction. Developed observability services using Dynatrace, Netscout, Splunk, and ELK for anomaly detection and performance analysis.

Consultant en télécommunications et projets informatiques

Feb 1998 — Dec 2021

Cabinet de Conseil & ESN

Ville de Paris, Île-de-France, France

Managed strategic contract portfolios and doubled revenue to €7M over five years. Led 50 consultants with full P&L responsibility and overseen service center achieving 100% contractual compliance. Conducted internal SMSI audits (ISO 27001) and provided technical expertise on critical networks. Animated executive committees on network, contractual, and compliance matters for Fortune 500 clients.

Network Telecommunications Engineer

Aug 1991 — Dec 1998

Telecommunications company

Île-de-France, France

- Conception et optimisation d'architectures télécom, participation au déploiement de solutions pour divers clients.
- Collaboration avec les équipes techniques et commerciales pour adapter les offres aux besoins des clients.
- Veille technologique et proposition d'améliorations pour anticiper les évolutions du marché.

EDUCATION

Grenoble INP - UGA

Diplôme d'ingénieur in Telecommunications

ex-ENSERG/INPG

Jan 1987 — Jun 1990
